

About

Wired Authority is an IT optimization partner that helps businesses understand their technology needs and implement effective solutions to cut operating costs and increase company value.

Core Offerings

IT Telecom Audits

We conduct a comprehensive, obligation free review of the business' internet, network, and software spend across all locations and identify cost savings.

Managed Services

We provide ongoing oversight to ensure savings are maintained, and consolidate your tech into a structured management model.

IT Procurement & Vendor Contract Consolidation

We structure fragmented vendor relationships by renegotiating, consolidating, or eliminating contracts that no longer serve the business.

Professional Services

We support the physical infrastructure required to scale efficiently, coordinating network and low-voltage planning.

OUR PROCESS IS SIMPLE:

We **audit** your current internet and technology services to show where you're overspending.

We **streamline** your vendors and contracts so everything is easier to manage.

We remove unnecessary services and **simplify** your setup.

We help you **save** money without disrupting your day-to-day operations.
